

The Dynamic Ice Summer School Program

The Dynamic Ice Summer School is a 6-week long training camp for Skate Canada Competitive and StarSkate skaters of all levels. Dynamic Ice Summer School provides effective on-ice programming for all skating disciplines. Our various programs have been developed to give our skaters a truly unique experience in a safe and structured environment.

The school will also emphasize well-rounded sport performance training through organized off-ice training programs in the areas of fitness, flex & stretch, dance, sport psychology training, and nutrition, all designed to complement a skater's on-ice training.

Dynamic Ice's commitment to its athletes reaches far beyond the standard on-ice and off-ice components of a regular summer skating school. Participants will also have the opportunity to access a multitude of resources including video playback and analysis with our Dartfish© technology, our movable jump harness as well as Dance partnering and choreography lessons. Competition simulations will be made available throughout the 6-week program.
